

# AIRPLANE HANGARS

NORTH AMERICA'S LEADING PROVIDER  
OF COMMERCIAL, INDUSTRIAL, AND  
RESIDENTIAL STEEL BUILDINGS

# NORSTEEL *PREFABRICATED* BUILDINGS ARE IDEAL FOR AIRPLANE HANGARS

Norsteel has been built on a foundation of honesty and integrity. Over the years we have established ourselves as North America's leading supplier of award-winning, pre-engineered steel buildings. Our structures are designed, engineered, and fabricated in state-of-the-art manufacturing plants, which means we can deliver your finished product weeks faster than most others. All of our products are long-lasting, durable, and backed by industry-leading warranties.

Few storage-related applications in construction are responsible for the storage and protection of more costly goods than airplane hangars. With prices that can reach tens of millions of dollars, these are investments that require the best care. Airplane hangars must reliably shelter aircraft and related maintenance equipment from harsh weather conditions and unauthorized entry.

## STEEL AIRPLANE HANGARS

Using steel in construction is the smart choice for any airplane hangar. Regardless of the type of aircraft housed in the hangar, a clear-span space is essential to ensure there is enough room to accommodate the craft and its regular maintenance schedule. Customization is key with these buildings as each aircraft has different requirements for space and layout. Whether it be a nested or standard T-hangar configuration or a JetPod set-up, steel buildings can be easily constructed to meet your needs.

Steel buildings offer climate control and security, both of which are must-haves when it comes to protecting your aircraft. They are also durable and long-lasting, saving you maintenance and repair costs and avoiding disruption to your workflows.

## NORSTEEL METAL BUILDING SYSTEMS: THE PERFECT SOLUTION

A Norsteel building is the ideal choice for airplane hangars, offering clear advantages over other common materials such as wood and masonry. The flexibility of our pre-engineered materials will save time and make sure that the space is customized to meet your specific needs.

## THE NORSTEEL ADVANTAGE

### REDUCED COST

Our pre-engineered materials make it easier and faster to assemble our buildings; this reduces the time needed and labour costs during construction. Lower maintenance expenses provide additional value

### DESIGN CUSTOMIZATION

Our team of engineering experts help you design the building you want. Depending on the location, you can also expand or alter the structure over time.

### SUSTAINABILITY

The steel used in Norsteel buildings is nearly 100% recyclable; this makes it cost-effective and leads to less reliance on valuable natural resources

### PEACE OF MIND

You can rest easy knowing that Norsteel buildings are safe and secure, providing superior and long-lasting protection

## NORSTEEL BUILDINGS

Call Norsteel Buildings today. Our dedicated Building Specialists will work with you to understand your specific needs and to design a custom steel structure that best addresses your exact requirements.
