

# MARIJUANA GROW-OPS

NORTH AMERICA'S LEADING PROVIDER  
OF COMMERCIAL, INDUSTRIAL, AND  
RESIDENTIAL STEEL BUILDINGS

# NORSTEEL *PREFABRICATED* BUILDINGS ARE IDEAL FOR MARIJUANA GROW-OPS

Norsteel has been built on a foundation of honesty and integrity. Over the years we have established ourselves as North America's leading supplier of award-winning, pre-engineered steel buildings. Our structures are designed, engineered, and fabricated in state-of-the-art manufacturing plants, which means we can deliver your finished product weeks faster than most others. All of our products are long-lasting, durable, and backed by industry-leading warranties.

Canada recently joined a growing number of states in the US in legalized cannabis and has since realized that the construction of marijuana grow-op facilities is far behind the demand. Therefore, a key requirement for businesses looking to enter into this emerging industry is time-to-market. A clear-span, climate-controlled space is essential when considering the layout of these buildings and the growing environment for your valuable crops. When your entire business is contained within a building, you want to make sure it will be able to withstand anything.

## STEEL MARIJUANA GROW-OPS

Steel is the perfect fit for marijuana grow-op buildings. It provides a climate-controlled environment to ensure the health of the plants while also offering clear-span space that can accommodate all your growing accessories including ventilation, lighting, de-humidification, and irrigation equipment.

Steel buildings offer a sturdiness that means they will require little maintenance throughout the years, keeping your buildings looking great for decades to come. Its strength and durability ensures that the building can withstand harsh weather conditions and provide added protection from fire, ensuring your crops will be well protected and able to thrive in any environment.

## NORSTEEL METAL BUILDING SYSTEMS: THE PERFECT SOLUTION

A Norsteel building is the ideal choice for any marijuana grow-op, offering clear advantages over other common building materials such as wood and masonry. The flexibility of our pre-engineered materials will save time and make sure that you are able to get to market quickly to become a part of this rapidly expanding industry. A Norsteel building will give you peace of mind and let you spend more time focussing on your growing business.

## THE NORSTEEL ADVANTAGE

### REDUCED COST

Our pre-engineered materials make it easier and faster to assemble our buildings; this reduces the time needed and labour costs during construction. Lower maintenance expenses provide additional value

### DESIGN CUSTOMIZATION

Our team of engineering experts help you design the building you want. Depending on the location, you can also expand or alter the structure over time.

### SUSTAINABILITY

The steel used in Norsteel buildings is nearly 100% recyclable; this makes it cost-effective and leads to less reliance on valuable natural resources

### PEACE OF MIND

You can rest easy knowing that Norsteel buildings are safe and secure, providing superior and long-lasting protection

## NORSTEEL BUILDINGS

Call Norsteel Buildings today. Our dedicated Building Specialists will work with you to understand your specific needs and to design a custom steel structure that best addresses your exact requirements.
