

SPORTING ARENAS

NORTH AMERICA'S LEADING
PROVIDER OF COMMERCIAL,
INDUSTRIAL, AND RESIDENTIAL
STEEL BUILDINGS

NORSTEEL *PREFABRICATED* BUILDINGS ARE IDEAL FOR SPORTING ARENAS

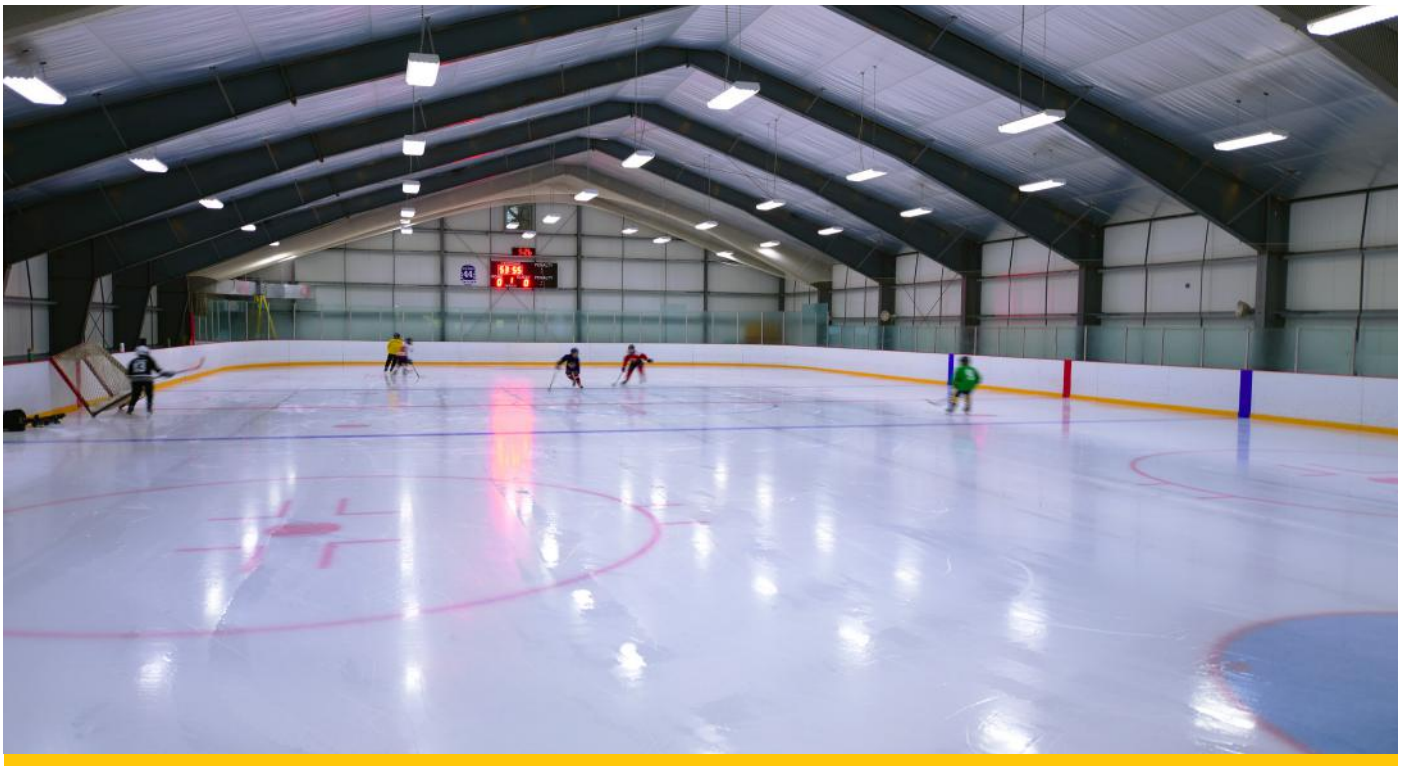

Norsteel has been built on a foundation of honesty and integrity. Over the years we have established ourselves as North America's leading supplier of award-winning, pre-engineered steel buildings. Our structures are designed, engineered, and fabricated in state-of-the-art manufacturing plants, which means we can deliver your finished product weeks faster than most others. All of our products are long-lasting, durable, and backed by industry-leading warranties.

Sporting arenas allow athletes and fans alike share in their passions. They require large open spaces while still being protected from the elements. Climate and temperature controls are required to ensure the necessary environment is maintained.

Steel buildings let this happen in custom-designed structures that are comfortable, safe, and sturdy. Their durability ensures that they will remain looking great for decades to come.

STEEL SPORTING ARENAS

Steel is an ideal choice for a wide variety of enclosed sporting arenas. It provides climate control, physical security, and options to customize your facility to suit your needs. Our sporting arenas are durable and long-lasting. They also reduce costs over time because they require less maintenance than facilities built using other materials. Examples of sporting arenas include:

- Hockey rinks
- Equestrian arenas
- Indoor field sport arenas
- Training gyms
- Cycling/BMX arenas
- Batting cages
- Motocross arenas
- Bowling alleys
- Indoor Go-Kart tracks
- Gymnastics studios

NORSTEEL METAL BUILDING SYSTEMS: THE PERFECT SOLUTION

Sporting arenas need a large, clear-span space for the recreational area but also need smaller separate spaces for areas such as administrative offices and changing rooms.

A Norsteel building is the ideal choice for modern sporting arenas, offering clear advantages over other common building materials such as wood and masonry. The flexibility of our pre-engineered materials will save time and make sure that the arena is built to accommodate all necessary specifications.

THE NORSTEEL ADVANTAGE

REDUCED COST

Our pre-engineered materials make it easier and faster to assemble our buildings; this reduces the time needed and labour costs during construction. Lower maintenance expenses provide additional value

DESIGN CUSTOMIZATION

Our team of engineering experts help you design the building you want. Depending on the location, you can also expand or alter the structure over time.

SUSTAINABILITY

The steel used in Norsteel buildings is nearly 100% recyclable; this makes it cost-effective and leads to less reliance on valuable natural resources

PEACE OF MIND

You can rest easy knowing that Norsteel buildings are safe and secure, providing superior and long-lasting protection

NORSTEEL BUILDINGS
